

August 28, 2014

The Utah State Office of Education is proud to support the Shape America Southwest District Conference held in Park City, Utah June 16-20, 2015.

As a result of the close demographics encompassing this region the southwest conference offers Utah teachers a rare opportunity to network with surrounding states, participate in breakouts designed to incorporate twenty-first century models into classrooms K-12., and gather hands-on materials to further standards of excellence for Utah schools. The Utah State Office of Education can also provide breakout presenters to support the new Physical Literacy Core Standards.

In support of our educators attending the conference Utah State Office of Education will offer twenty-four re-licensure points to all Utah teachers attending.

Thank you for hosting this conference. It provides more teachers the opportunity to attend a regional conference and profiles the excellent programs Utah is providing for teachers and students.

Linda Mayne
Utah State Office of Education Specialist
Health and Physical Literacy
